OURISMAN
AUTOMOTIVE GROUP

A SOLUTION FOR EQUIPMENT MANAGEMENT

Advantages

- Provides powerful database functionality with an easy-to-use application interface
- Simple and efficient way to view and manage equipment
- Secure databse that can only be accessed by authorized users

Limitations

- Equipment information can only be entered manually
- Not accessible on all devices

Implemented Functions

- Search, update, insert, and delete equipment
- Produce list of equipment at different locations
- Login to GUI to view and update database information
